ZEN CHIC

Imagine the luxury of having an afternoon just for yourself. You are in your garden, swinging in your hammock, enjoying the sun, doing what you love to do. It's just you, and you have time to stitch or knit a bit. The lovely scent of a pear tree beckons, and you take a bite from a perfect fruit.

This is the feeling that inspired Lazy Afternoon. A chilled vibe and retro color scheme of mustard, bright red, and just a bit of light aqua, give this collection a young, fresh look. Pears, playful balls of yarn, and bi-colored knitting needles mix with geometrics and a multitude of dots to complete the collection.
